

EUROPEAN PARTNERSHIPS

European partnerships are initiatives where the EU, national authorities and/or the private sector jointly commit to support the development and implementation of a programme of research and innovation activities. The partners can represent industry, universities, research organisations, bodies with a public service remit at local, regional, national or international level or civil society organisations, including foundations and NGOs.

The type of partnerships has a strong influence on the way to apply

1

For Co-Programmed European Partnerships:

These partnerships are between the Commission and mostly private (and sometimes public) partners

Topics can be found in the Horizon Europe work programmes and their calls for proposals.

2

Co-funded European Partnerships involving EU countries, with research funders and other public authorities at the core of the consortium:

These partnerships apply for Programme co-fund actions (CoFund) included in the Work programme. They then publish open calls for proposals. Applicants should check whether their country (Innoviris in Brussels) is involved in the Partnership

3

Institutionalised European Partnerships need a specific legal bases but work like co-programmes partnerships for applicants.

Contacts and more information

For Coprogrammed partnerships and Institutionalised Partnerships, Thematic NCPs

For Cofunded Partnerships, Beata Bibrowska @ Innoviris
